The **M.A.P. Promotional Material Ordering System (PMOS)** was designed and developed to streamline the Sales process for Sales Personnel and Managers. It facilitates the distribution of materials to Sales Reps and provides the means to ensure that your materials are *current, complete and compliant*.

Orders can be created and edited to add, remove or revise items as needed, providing Sales Reps with the ability to truly customize the materials to suit *all* of their needs. The built-in roster facilitates order placement, shipping, and prompt delivery!

- Intuitive & Responsive
- Supports Sales & Products
- Inventory Management
- Access from Multiple Platforms

The **M.A.P. PMOS** is a web based system that can be accessed from multiple platforms. Sales Reps and Managers login to the portal with their unique username and password using their internet enabled device. The **PMOS** also has the ability to restrict access to certain brands/field forces depending on the user.

The **PMOS** is designed to completely monitor your site activity. **Order Search** and **Tracking** features allow the user to easily and quickly identify: who placed the order, what items have been ordered, and when was it delivered. Our **Reports** page provides the information you need to create the customized, actionable reports that answer your *specific* needs!

- Efficient & Compliant
- Timely Notification Capabilities
- Order History/Tracking Information
- Customized, Actionable Reports
